**Two Step Software to Give Sneak Preview of New Corporate Focus  
Document Assembly Module at ILTA Conference**

*Latest release of Corporate Focus to incorporate document assembly for both  
corporate governance and stock plan administration documents*

**Needham, MA – July 17, 2007** — Two Step Software, Inc., a leader in corporate governance and stock plan administration solutions, will offer a preview of the next release of its browser-based software application Corporate Focus at next month's International Legal Technology Association (ILTA) Annual Meeting.

The latest version of Corporate Focus™, containing document assembly features and other enhancements, will be available within 90 days. The new release will offer a document assembly module that can significantly reduce the time spent generating legal documents, such as annual meeting consents, notices, letters, contracts, and many others. It is also anticipated that the new release will help reduce the number of applications IT departments need to support by seamlessly integrating document creation with knowledge management.

“Our job is to make providing legal services easier in a world of increasing complexity,” explained Gary D. Levine, President of Two Step Software. “The sheer volume of client data across the spectrum of diverse entities has always made it difficult to centralize and standardize important documents. With our new document assembly module, our users will be able to streamline the document creation process and greatly increase productivity.”

As a result of Two Step's partnership with a recognized market leader in the document automation industry, it has reduced the systems needed to create standard and customized documents and has ensured seamless integration with Corporate Focus data. According to Levine, the outcome means easier document creation and faster access to information.

In addition to demonstrating the new release at the ILTA Conference, Two Step will preview some of the new features during an ILTA-sponsored product briefing scheduled for Monday, July 23<sup>rd</sup> at 12:00 noon (Eastern Time). ILTA members can register for the free session, entitled “Online Minute Books and Ownership Administration for Law Firms” at [www.twostep.com/iltabriefing](http://www.twostep.com/iltabriefing). Seating is limited.

ILTA's 30th Annual Educational Conference takes place August 20 – 23, 2007 at the Grande Lakes Resort in Orlando, Florida. Two Step will be exhibiting at Booth #212. For additional information about the Conference, visit <https://conference.iltanet.org>.
